

ROUND & SQUARE FIRE PIT KITS

— *A Distinctive Hardscapes offering from Johnson Concrete Products* —

Attention DIY homeowners: Johnson Concrete Products manufactures fire pit kits that are extremely durable and easy to install! The round fire pit kit is comprised of VERSA-LOK Handy-Stone and the square fire pit kit of Johnson Concrete Products' CaptivaWall. Both options are a beautiful addition to your backyard oasis.

Colors available in the Piedmont area & Western North Carolina:

Kit includes:

- VERSA-LOK Handy-Stone units for the round kit or CaptivaWall units for the square kit
- 54" circle footprint or 48" square footprint
- Metal fire ring
- Three 10 oz adhesive tubes
- One non-returnable pallet

In addition, you will need:

- 5 1/3 cubic feet compacted aggregate base (ABC, crush and run, etc.)
- Bedding sand
- String line
- Line or laser level, a 4' level, and a 2' level
- Dead blow hammer or rubber mallet
- Broom and a rake
- Stakes
- Spray paint

Installation guide:

1. Have all utilities marked clearly before you begin.
2. Determine the center of the circle or square for the fire pit to be installed.
3. Excavate area to be installed 4" deep.
4. Add compact aggregate and 1" bedding sand.
5. Place fire pit ring in designated circle or square.
6. Begin stacking your units around the circle or square insert base one layer at a time, gluing each course with two 1/4" beads of glue per block.
7. Allow 24 hours for glue to dry before enjoying.
